HONORS & AWARDS

- 2021 **Silver Medal | Top 5% (101 from 2,426) | Shopee Price Match Guarantee | [Kaggle Leaderboard](#)**
The task was predicting similar e-commerce products by using product images and titles. I utilized EfficientNet and NFNet to extract feature embeddings from images and utilized BERT and TFIDF to extract feature embeddings from texts. I calculated the cosine distance between products and employed k-NN to find similar products
- 2021 **Top 3% (28 from 1,034) | Shopee Code League Data Science Challenge | [Kaggle Leaderboard](#)**
The challenge was extracting Point of Interest (POI) names and street names from unformatted Indonesia addresses collected by Shopee. I framed the challenge as NER (Named Entity Recognition), where POI and street are the extracted entities. Then, I fine-tuned the IndoNLU model on the customized dataset.
- 2019 **Gojek Upscale 02 for Indonesia's Data Science Enthusiast | [Certificate](#)**
A complete two-day experience from the **Gojek data science** team. It covered machine learning, data modeling, and Gojek data science practices. I was one of 20 chosen participants out of 1,000 applicants
- 2019 **Southeast Asia Machine Learning School (SEA MLS)**
