EDUCATIONS

Institut Teknologi Bandung

Bandung, Indonesia

Bachelor of Computer Science

2015 - 2019

- **Cum Laude** with GPA 3.68 / 4.00 ([transcript](#))
- [I was honored as an inspiring graduate](#) because of my outstanding academic and non-academic achievements

Vrije Universiteit Amsterdam

Amsterdam, Netherlands

Summer School Student of "Big Data in Society" Advanced Bachelor Course

July 2018

- Achieved excellent A grade ([transcript](#))

EXPERIENCES

Research Engineer <> Fulltime

Singapore

School of Computing and Information System, Singapore Management University

Nov 2019 - present

- Conducted research on **Machine Learning Testing** supervised by ACM Distinguished Scientist [Prof David Lo](#)
- **Published** 3 papers in reputable software engineering conferences, i.e., ACM ESEC/FSE, IEEE SANER, and IEEE ICSME
- Experienced in **maintaining** various PyTorch and TensorFlow ML projects using Docker

Co-Founder & CTO <> Self-employed

Surabaya, Indonesia

Alinamed - [Company Profile](#), [Playstore](#), [AppStore](#), [Website](#)

Jan 2019 - July 2020

- **Managed the software development lifecycle** by collaborating across members to evolve SDLC, including functional requirements analysis, design specification, technical code review, project planning, and implementation of applications
- Managed the selection of programming languages, frameworks, cloud, web servers, databases, and mobile
- Won prestigious startup **competitions**, e.g., [1st Winner at WMM by Bank Mandiri](#), 1st Winner at Startup Weekend Surabaya, Winner at Tech-to-Impact by UK-ID Tech Hub. Secured IDR 750 million **investment** from Telkom Indonesia

Machine Learning Engineer <> Internship

Jakarta, Indonesia

Bukalapak

May 2018 - Aug 2018

- Developed **object detection** as a part of the "search by image" feature. It's implemented using [Faster RCNN](#) on Tensorflow
- Developed **character recognition** to detect seller's information (e.g., phone number and Instagram username) in the e-commerce product image. Localized text lines using CTPN (Connectionist Text Proposal Network). Implemented post-processing techniques on OpenCV to combine several words within the same context

HONORS & AWARDS

- 2021 **Silver Medal | Top 5% (101 from 2,426) | Shopee Price Match Guarantee | [Kaggle Leaderboard](#)**
The task was predicting similar e-commerce products by using product images and titles. I utilized EfficientNet and NFNet to extract feature embeddings from images and utilized BERT and TFIDF to extract feature embeddings from texts. I calculated the cosine distance between products and employed k-NN to find similar products
- 2021 **Top 3% (28 from 1,034) | Shopee Code League Data Science Challenge | [Kaggle Leaderboard](#)**
The challenge was extracting Point of Interest (POI) names and street names from unformatted Indonesia addresses collected by Shopee. I framed the challenge as NER (Named Entity Recognition), where POI and street are the extracted entities. Then, I fine-tuned the IndoNLU model on the customized dataset.
- 2019 **Gojek Upscale 02 for Indonesia's Data Science Enthusiast | [Certificate](#)**
A complete two-day experience from the **Gojek data science** team. It covered machine learning, data modeling, and Gojek data science practices. I was one of 20 chosen participants out of 1,000 applicants
- 2019 **Southeast Asia Machine Learning School (SEA MLS)**
A five-day ML training event held by [Southeast Asia's AI experts](#) working at DeepMind UK and Google Brain USA. I was one of 200 chosen participants out of 1200 applicants across Southeast Asia and India
- 2011 **Bronze Medal | Mathematics Olympiad at 2nd National Science Camp | [Certificate](#)**
Awarded by Ministry of Education - Indonesia

TECHNICAL SKILLS

Programming	Proficient Python, C++	Experienced Golang, Javascript, Java, C, PHP, HTML, CSS, C#
Database	Proficient MySQL	Experienced PostgreSQL, MongoDB

MACHINE LEARNING CERTIFICATE

DeepLearning.AI Neural Network and Deep Learning | Credential ID: [D8GK6SD6Y5TG](#)

SOFTWARE ENGINEERING PROJECTS

- | | |
|------------------|---|
| Python | PiGlass - Hear Your Text 1st Winner at a Competition on Building Device for Visually Impaired People
Developed a device for visually impaired people to help them hear what they see. It's powered by a RaspberryPI as a processing unit. It captured an image using a camera, recognized texts and then output voices |
| Javascript | PR Ojek Web Development Course Project
An online platform for taxi bikes to help people find a taxi bike easily. It's implemented in MEAN Stack development. There was a chatting feature using the REST service. The project used MongoDB as database |
| Java,
Android | Sinau - Find Your Tutor Here Gemastik Semifinalist - Apps Development
An android-based chatting app developed for student and mentor to make the communication easily |

INTERPERSONAL SKILLS

- 2018 **Granted Scholarship** from Rumah Amal Salman ITB. This scholarship focused on **capacity building** to create future leaders. I was awarded as **top 10 awardees** of this scholarship
- 2017 Selected participants to take **leadership training** from Siam Cement Group (SCG). Designed by SCG Learning, the program aims to give participants **fundamental leadership concepts** and provide them opportunities to **practice the interpersonal skill** with other young leaders

I declare the details stated to be true and complete.
(This resume is updated on August 17th, 2021)
